

MATRIX

ENDURANCE STEPPER

Give your members a natural stair-climbing experience that's as smooth as it is secure.

Our Endurance Stepper is ideal for heavy use in professional fitness facilities where space is at a premium and budgets need to stretch further. A unique design mimics the feel of smoothly climbing real stairs, large non-slip pedals provide a secure feel, and a low-maintenance belt-drive delivers near-silent operation.

An angled, independent stepping motion mimics the feel of real stair climbing for a comfortable and efficient exercise experience, and extra-large non-slip pedals provide excellent stability.

Large, conveniently placed controls feature a unique sealed design that improves durability and provides tactile feedback with each adjustment.

A belt-drive design provides a smooth, quiet exercise experience and low-maintenance operation for years.
